Tel#: 763-413-8217

* 4 CEU's maximum for Electricians and Elevator Constructors.

Why use PLT Services ?

Classes are taught by Power Limited Technicians who actually work, or have worked in the field. Classes are relevant to the Power Limited Tech, not electricians.

Classes are limited in size so you can ask the questions you need answers to. All of our regular instructors are Licensed Power Limited Technicians, and have a minimum of 22 years experience in their areas of expertise. PLT Services works with manufacturers, distributors, and dealers who have special talents they are willing to share. PLT Services has instructors available to us that train on specific subjects they are experts in. These classes are arranged by request.

Power Limited Training Services

PLT services is a Department of Labor and Industry approved source for continuing education credits for the Power Limited Technician as well as other license holders in the electrical industry. PLT Services classes are designed to provide usable and valuable education not just fill chairs and take up your time. Our classes cover subjects that are important to the industry and enable the Power Limited contractor to expand their business. Required courses include National Electric Code based on the most current issue of the NEC Code book. The NEC Classes are specific to the areas of interest to the PLT and PLT Contractor.

PLT Services will come to you and provide classes to your entire company, allowing the contractor to save the cost of sending employees out of town to fulfill their CEU requirements. Our regularly scheduled classes

are reasonably priced for the individual needing to renew their personal license.

Some of the Classes PLT Services Offers:

National Electrical Code Chapter 725 2008 and related Articles. This class covers Class 1,2,and 3 wiring and other specifically related issues.

National Electrical code Chapter 800 2008. This class covers communications wiring and specifications.

These classes both meet the 2 hour CEU minimum renewal requirement.

NEC and The PLT, This Class covers the National Electrical Code and how it relates to the PLT. This meets 4 CEU Minimum Hours

OTHER TECHNICAL CLASSES

MN Rules 12-1-2007, ADA Compliant Communications.

Introduction to Fire Alarm Systems.

Low Voltage Wiring with a residential emphasis.

Introduction to Access Control systems.

CCTV 101 an introduction to designing closed circuit TV installations.

Central Station Communications for the Alarm installer.

Alternative Communications for the alarm Industry

including Internet reporting, DSL problems, VOIP, and Cellular backup.

Electrical Trouble Shooting.

PLT Prep Exam Classes, This is a class to prepare the technician for the PLT exam test. It is a 4 day class.

PLT Service will come to your location to fulfill their renewal requirements for all your technicians at one time .

Classes can be run at your facility for up to 15 students per class. You may schedule for as few as 4 hours or as many as 16. Pick and choose the class that best fits your company or work with our training staff to design a specific schedule to best fit your needs.
